### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Shane Hunter on 11/19/2009 and 11/20/2009.

The application has been amended as follows:

**Claims 2, 10, 12, 13, 14, 18, 35, 37:** replace "the UPS" by "the single UPS"

**Claim 26,** line 18, replace "the UPS" by "the single UPS".

**Claim 4,** line 1, replace "the event" by "the predetermined event".

**Claim 31,** line 3, line 4, line 7, replace "the event" by "the predetermined event".

**Claim 1:** line 14, replace "the user interface module being further configured to generate a second user interface portion providing historical power event information associated with the single UPS" by "the user interface module being further configured to automatically generate a second user interface portion providing historical power event information associated with the single UPS".

**Claim 17:** line 15, replace "generating a second user interface portion providing historical power event information associated with the single UPS" by "automatically generating a second user interface portion providing historical power event information associated with the single UPS".

**Claim 26:** line 14, replace "displaying a second user interface portion providing historical power event information associated the single UPS" by "automatically generating a second user interface portion providing historical power event information associated the single UPS".

**Claim 31:** line 15, replace "means for generating a second user interface portion providing historical power event information associated with the single UPS" by "means for automatically generating a second user interface portion providing historical power event information associated with the single UPS".

**Claim 35:** line 16, replace "generate and cause to be displayed a second user interface portion providing historical power event information associated with the single UPS" by "automatically generate and cause to be displayed a second user interface portion providing historical power event information associated with the single UPS".

***Allowable Subject Matter***

Claims 1,2,4-7,10-14,16-29,31,32,34,35,37-39 and 41-43 are allowed.

The following is an examiner's statement of reasons for allowance:

Independent claims 1, 17, 26, 31, 35, when considered as a whole, are allowable over the prior arts of record. Specifically, prior arts of record do not teach or suggest the combination of means, arranged and interacted to perform the step of providing information about the occurrence of a predetermined event associated with a single uninterruptible power supply in operable communication with the system. Specifically, Kuiawa et al. teach the user interface module configured to automatically generate a first user interface portion providing information relating to the predetermined event (figure 6, pages 2-3, 0025), the user interface comprising at least one of graphical portion and an alphanumerical portion (figure 6, 604, 634). Kuiawa et al. teach multiple characteristics being at least two of battery capacity, time to shut down, and on-line/on-battery status (page 4, 0034). Kuiawa et al. also teach the user interface module generating the user interface and cause the user interface to be displayed automatically upon occurrence of the predetermined event (page 4, 0034).

However, none of the references teach or suggest the feature of generating a second user interface portion providing historical power event information associated with the single UPS wherein the first and second user interface portions together occupy substantially an entire display window.

With such limitations, the Examiner deems this application in condition for allowance over the prior arts made of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays,

should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mylinh Tran. The examiner can normally be reached on Mon - Thu from 7:00AM to 3:00PM at 571-272-4141.
